

# Felt Succulents Templates & Guide

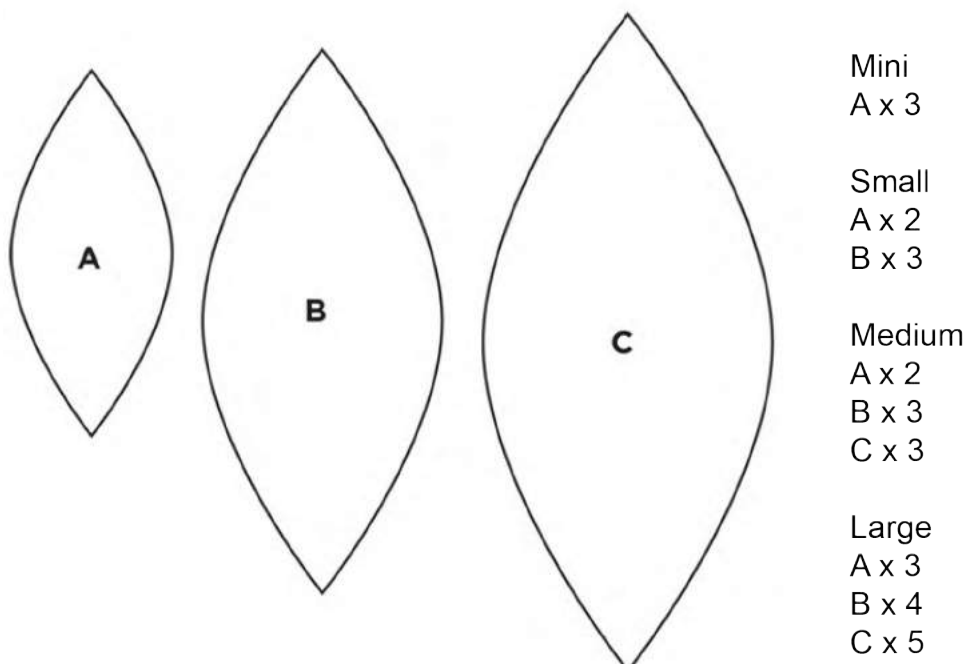

1. Put a small line of hot glue in the centre of a small petal and fold the petal at an angle. Add a line of hot glue to the bottom edge and roll into a cone shape to create the centre.

2. For the rest of the petals, put a line of hot glue in the centre and fold at an angle. Add a line of hot glue to the bottom of the petal and attach to the centre piece.

3. Continue adding pieces in a circular pattern. Follow the petal counts in the downloadable template for each size you make.

C x 7

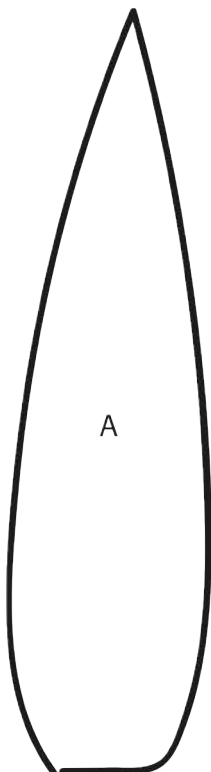

1. Put a small line of hot glue in the centre of the base of the leaf and pinch together.

2. Repeat until you have done this for all the leaves.

3. Put a small dab of hot glue on the edge of the pinched base and stick together. Alternate sides until you have completely stuck your leaves together.

Templates - Cut out or mount to card stock and cut.

1. Put a line of hot glue along the longest edge of the rectangle and carefully roll, placing another line of hot glue to secure it.
2. To add the petals put a small line of hot glue of the bottom edge and wrap around the top of the roll.
3. Continue adding the petals, carefully spacing and layering them
